01 Project Abstract & Motivation

Think:

*Do you know how much waste NYC is
collecting and **recycling** everyday?*

*More importantly, are **you** aware of how
dire the current waste production &
management **problem** in NYC is?*

Did You
Know...

14 Million Tons

of waste are **produced annually** in NYC

\$452 Million

spent on **shipping out 3.4 million tons** of household trash

7.8 Million Miles

are driven by Diesel trucks annually **carrying solely Manhattan's waste**

Currently...

even with a

\$1.83 Billion

budget on NYC's sanitation,

NYC is nowhere close to:

- ★ meeting its 2015 goal of **sending zero waste to landfills by 2030**
- ★ meeting its goal of a **33% diversion rate**

Compared to Other Major Cities...

- ★ NYC holds a **diversion rate of 17.6%** in 2021, around **40-60% lower** than those of Seattle, LA, & SF
- ★ NYC produces **14 million tons of annual waste**, around **9-12 million tons more** than Chicago, Boston, & Philadelphia

How Can We Fix This?

Increase Transparency

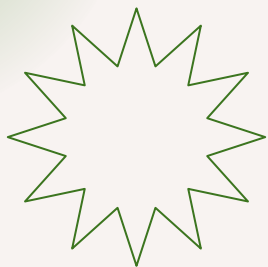

Give NYC residents better, easier, & greater **access to information** on the city's current waste production levels & recycling trends

Allow Personal Impact

Allow NYC residents to find methods they can **personally contribute** to alleviating the NYC waste overflow problem

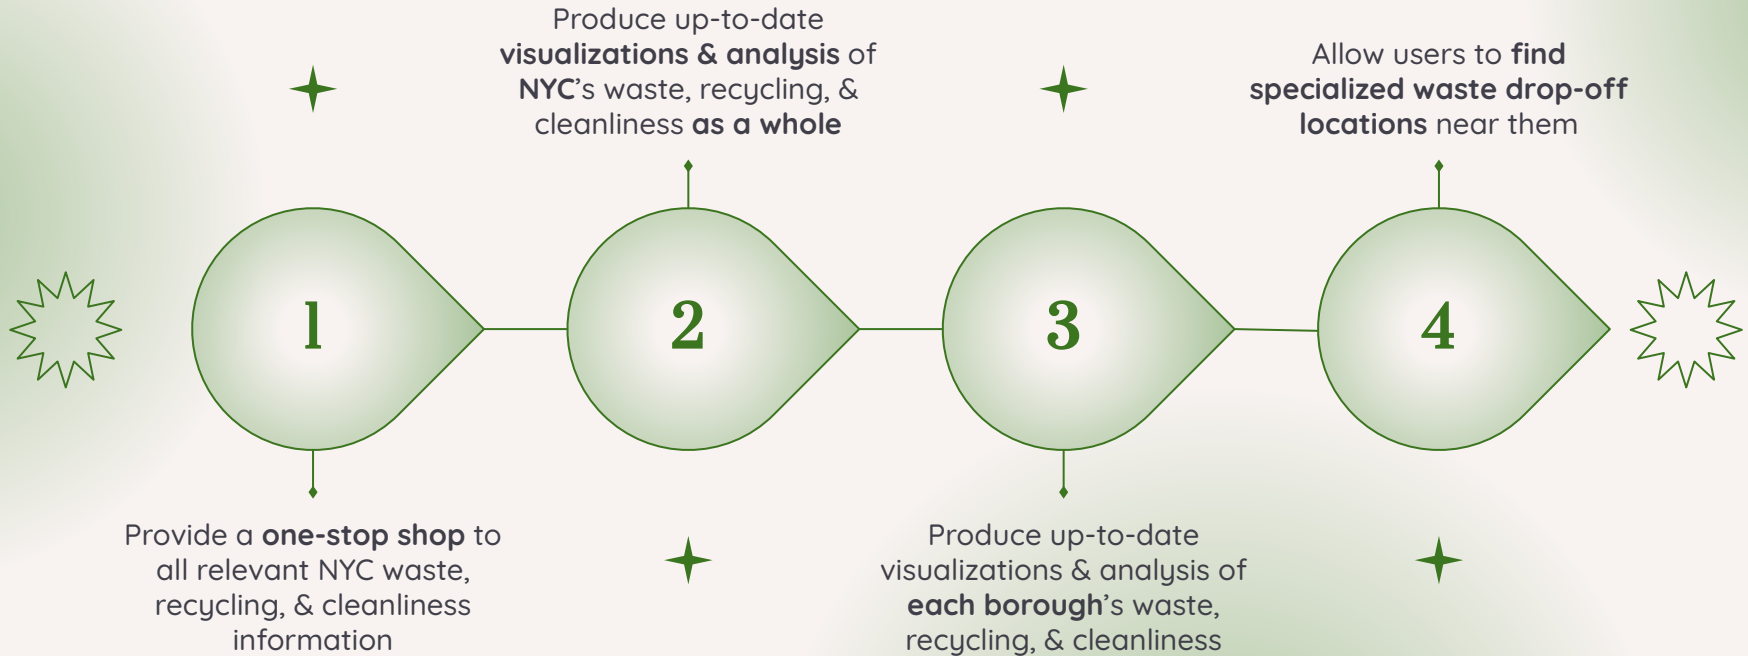

*we present **LocateYourWaste!***

LocateYourWaste Provides...

Featured Pages

Waste in NYC

infographics of:

- 2022 in tons
- Annual total waste production
- Annual total waste production by waste type (refuse, paper, MGP)
- Annual total waste production by borough
- Ranking of boroughs by waste production

Waste by Borough

- **interactive** → choose which borough you'd like to look at specifically

infographics of:

- Borough demographics
- Annual total waste production
- Annual total waste production by waste type
- Yearly recycling trends
- Street cleanliness ratings

Waste Drop-Off Locations

- **interactive** → choose what **type of specialized waste** you'd like to drop-off & **which borough/address** you are located at
- Map of NYC
- List of specific drop-off locations & additional notes (open hours, operation days, etc.)
